Weekly Handouts – View and Download

For the 2016-2017 Academic year, Lecture Recordings will not be mixed with lecture handout materials.

As the lecture handout file names in the MEDICOL file system now reflect the chronological order of lectures, handouts will no longer be directly linked in the ‘Weekly Materials’ area.

The ‘Download Handouts’ areas will be replaced by ‘Curriculum Materials’. This link will be available from Quick Links.

- Handouts can be opened directly by clicking on the file.
- Viewing and downloading in same area.
- iPad friendly - Eliminates the need for the ‘three-click-trick’.

Other changes

- Longitudinal courses merge to Clinical Experiences
- Lab blocks (Histology, Anatomy) merge to Lab Resources
- Continue with OnlineLearningResources page as documentation of all VPs/Podcasts.
- Just-in-time deployment of content. Year 2 course starts blank.
- Heavy use of Groups for FLEX Notebooks and Portfolios.
- Portfolios now in a separate Connect course
